Service-Learning Project Story 20____

Service-Learning is when a member completes a service project that is of high value to the community <u>and</u> also helps facilitate high levels of learning for the member. Service-learning is rarely accomplished in a one-time event. Service-learning should not be confused with volunteerism (example: roadside clean-up) or community service (example: helping at a nursing home one time).

Describe your most impactful service-learning project that you actively participated in this year. Be sure to include some **photos** and discuss the following details:

- What service-learning project did you participate in?
- Why did you select this service-learning project?
- How did you help plan and implement this project?
- What was your role in this service-learning project?
- How did this project benefit your community?
- What new knowledge or skills did you develop as a result of doing this project?
- How did you know that your project was successful?
