Community & Business Leaders

UW-Madison Division of Extension

Hope 4 U

Northwoods Coalition

The Buffalo County Partnership Council provides collaborative prevention programming to educate youth and their families to make healthy choices and positively influence people and policies.

We are a youth-adult partnership that values unified, community-wide prevention approaches. We utilize research, trust, local resources, and partnerships to meet our goals.

The Buffalo County Partnership Council utilizes national, state, and local data, like results from recent Youth Risk Behavior and Community Perceptions surveys, as well as county needs assessments to establish goals and objectives. Currently, the Partnership Council develops and facilitates programming that aims to address:

- Youth Substance Use
- Teen Dating Violence
- Mental Health
- Positive Peer Relationships

BUFFALO COUNTY PARTNERSHIP COUNCIL'S CURRENT PROGRAMMING INCLUDES:

Senior Day is an opportunity for graduating students across Buffalo County to learn about potential risks and how to avoid them before becoming an adult.

Tenth Grade Day is a day where teenagers participate in activities that have to do with the dangers of distracted driving. Also developing skills in preventing suicide.

Eighth Grade Day provides a transitional experience for youth in preparation from middle to high schools and engages students in dialogue about what it means to be an active bystander.

Fifth & Sixth Grade Day is a program that aims to engage 5th and 6th graders in thinking critically about their personal behaviors and attitudes and how they impact others.

PROGRAMS TO REACH PARENTS AND COMMUNITY MEMBERS

The Buffalo County Partnership Council is dedicated to prevention outreach efforts that reach adults in our communities, including:

- Community Prevention Nights
- Town Hall Events
- Mock Bedroom Simulations
- Public Information Campaigns

"The Buffalo County Partnership Council provides collaborative prevention programming to educate youth and their families to make healthy choices and positively influence people and policies."
